Grillslinger offers the ultimate tool system for BBQ enthusiasts

Melbourne Giftwares Show, Grand Pavilion G1918

MELBOURNE – Exhibiting for the first time at this year's Melbourne Giftwares Show, August 4-8th, *The Original Grillslinger™* barbecue tool system was featured amongst the hottest new grilling accessories in *Gourmet Magazine's* Grilling Issue in June 2005, and was a finalist for the *Gift of the Year Awards* in the United Kingdom July 2007.

For people who love to barbecue, *The Original Grillslinger™* offers a barbecue tool system designed to match the ever-increasing quality and range of premium BBQs. A cleverly designed twist on the classic builder's belt, it incorporates a barbecue belt with three precision grilling implements: tongs, flipper and grill knife. Each implement is securely held by washable 'lock-and-load' inserts.

Owned and developed by award winning New Zealand restaurateurs and business partners, Steve Logan and Al Brown of Logan Brown Restaurant and Bar, *The Original Grillslinger™* was recently launched in Australia and has an RRP of AU\$ 99.

A second product, *Grillslinger Sport* will be shown for the first time at the Melbourne Show. With an RRP of AU\$ 49, *Grillslinger Sport* is specifically designed to appeal to the next level price point and at the same time to create wide appeal within the corporate gift market. The Sport model is differentiated from the *Original* in the following ways; it has a Pro-Flipper (Spatula) & Speed Tongs, as in the Original Grillslinger, however the Grillslinger Knife is removed, and in its place is an insulated, adjustable Beverage Cooler.

Media or trade buyers interested in finding out more about *The Original Grillslinger™* or *Grillslinger Sport* can e-mail Steve Logan or Debbie Jones at Grillslinger International at steve@grillslinger.com, deb@grillslinger.com, review www.grillslinger.com, or visit their booth G1918.

Ends....
